

# **PERKINS Series**

# DST-P Series Diesel Generator Set

**Standby** 1385 kVA 1108 kW **Prime** 1250 kVA 1000 kW

Standby Power (ESP): In case of failure of reliable mains supply,variable electricity is used to power the load. ESP complies with ISO8528. Overloading is not allowed.

Prime Power (PRP): Variable electricity to load, power supply, yearly unlimited operation used for the clock. PRP complies with ISO 8528. 12 hours of operation according to ISO3046 Used for 10% overload for 1 hour in the period.

### Engine

In DST Power Generator engine products; High performance, low fuel consumption, mechanical or electronic governor depending on the type, Oil, air, fuel filters are interchangeable, using high technology engine brands in accordance with ISO 3046, ISO 8528, BS 5514, DIN 6271 standards.

| ENGINE SPECIFICATIONS    |                                   |  |  |  |  |
|--------------------------|-----------------------------------|--|--|--|--|
| Engine Brand             | PERKINS                           |  |  |  |  |
| Engine Model             | 4012-46TWG2A                      |  |  |  |  |
| Engine Power             | 1166 kW / 1055 kW (Standby/Prime) |  |  |  |  |
| Speed (rpm)              | 1500                              |  |  |  |  |
| Time                     | 4                                 |  |  |  |  |
| Number of Cylinders      | 12 V Туре                         |  |  |  |  |
| Engine Capacity          | 45,842 lt                         |  |  |  |  |
| Bore & Stroke (mmXmm)    | 160x190                           |  |  |  |  |
| <b>Compression Ratio</b> | 13,6:1                            |  |  |  |  |
| Governor Type            | Electronic                        |  |  |  |  |
| Induction System         | Turbocharge / Intercooler         |  |  |  |  |
| Combustion System        | Direct                            |  |  |  |  |
| Cooling System           | Water Cooling                     |  |  |  |  |
| Lubrication Capacity     | 177 lt                            |  |  |  |  |
| Coolant Capacity         | 210 lt                            |  |  |  |  |
| Fuel %100                | 259 lt                            |  |  |  |  |
| Consumption %75          | 196 lt                            |  |  |  |  |
| liter/hour %50           | 143 lt                            |  |  |  |  |

#### Alternator —

In DST Power Generator alternator products, it has a steel body design, robust structure, maintenance-free bearing system (brushless) with self-excitation system, electronic type voltage regulator, BS 4999-5000; CEI EN 60034-1; IEC 60034-1; VDE 0530, OVE M10, NF 51-100, 111; It uses high technology alternator brands in accordance with NEMA MG 1.22.

| ALTERNATOR FEATURES |                     |  |  |  |
|---------------------|---------------------|--|--|--|
| Power Factor        | 0,8                 |  |  |  |
| Insulation Class    | н                   |  |  |  |
| Protection          | IP21-IP23           |  |  |  |
| Output Voltage      | 231/400 VAC - 50 Hz |  |  |  |
| Frequancy           | 50 Hz               |  |  |  |
| Connection Type     | Star                |  |  |  |
| Design              | 4 Poles - Brushless |  |  |  |

### **Control System**

Easy-to-use secure software updates in DST Power Generator control panels have a structure that can be easily done with USB ports. Optionally, remote control can be provided with ETHERNET and GPRS. Panel body is made of steel sheet and is painted with electrostatic powder paint. It has been painted. The electronics are isolated and waterproof design.

#### **CONTROL SYSTEM FEATURES**

LCD Screen Automatic Control System

Remote monitoring possibility

**Multifunctional business opportunity** 

Multi language support

Programmable over USB, RS-232 and GSM

## Chassis, Canopy and Fuel Tank

DST Power Generator chassis has a modular design and is made of steel. Engine alternator Radiator connections are made with vibration wedges and vibration is minimized. Special chassis and fuel tank in line with customer demands can make designs.

#### CANOPY

Canopy design that facilitates generator maintenance

Emergency stop button on the cabin

Transparent control cabinet window

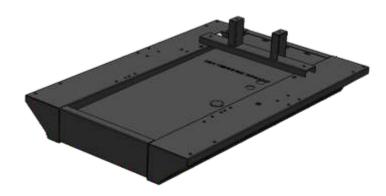

Acoustic sponge providing sound insulation

Hidden exhaust silencer inside the cabin

Engine cooling air ducts

Electrostatic powder paint resistant to corrosion and rusting

Refueling outside the cabin

#### **OPTIONS**

| Transfer Board                  | Analog Gauges            |  |  |
|---------------------------------|--------------------------|--|--|
| Protection Switch               | 24 Hour Fuel Tank        |  |  |
| External Type Fuel Tank         | Special Chassis Color    |  |  |
| Synchronous System              | Special Cabinet Color    |  |  |
| Electronic Governor Application | Remote Monitoring Module |  |  |
| Earthquake Sensor               | Special Type Muffler     |  |  |

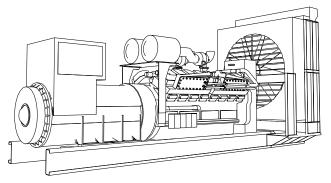

## 🖉 Quality Standards 🚄

- All generating sets produced by DST Power Generator have TSE, CE and ISO 9001 certificates.

- Technical information and values are in accordance with ISO8528, ISO3046, NEMA MG1.22, IEC 600341, BS 49995000, VDE 0530 standards.

| TECHNICAE       |         |         |          |           |  |  |
|-----------------|---------|---------|----------|-----------|--|--|
| CABINET GROUP   |         |         |          |           |  |  |
| WIDTH           | LENGTH  | HEIGHT  | WEIGHT   | FUEL TANK |  |  |
| 2438 mm         | 7000 mm | 3620 mm | 17356 kg | 2500 lt   |  |  |
| UNCABINET GROUP |         |         |          |           |  |  |
